FLUID HANDLING EQUIPMENT PRODUCT LINE CARD

Chemical Process Pumps:

ANSI B73.1M Chemical Process Pumps (100% interchangeable w/Durco® Mark 3™ & Goulds® 3196™)
Low Flow ANSI-Dimensional Chemical Process Pumps
Self Priming Chemical Process Pumps
Replacement Parts 100% interchangeable with Durco® Mark 3™, Mark 2™ & 1™ Goulds® 3196™, Peerless® 8196™, Griswold® 811™ and Summit® 2196™.

Filtration & Physical Water Treatment Systems:

Automatic Self-Cleaning Water Filters
Bag Filters, Basket Strainers and Cartridge Filters (incl. Replacement Bags, Baskets & Cartridges)
Electronic Mineral Scale Control Systems (Patented Technology, Non-Intrusive, Maintenance Free)

General Service Centrifugal Pumps with Mechanical Seal:

Close-Coupled Horizontal End-Suction Centrifugal Pumps
Close-Coupled Self-Priming Pumps
Horizontal Split-Case Pumps
Self-Priming Solids Handling/Trash Pumps & Self-Priming High Efficiency Pumps (100% Interchangeable with other OEM Brands like Gorman Rupp® T-Series™ and U-Series™)
Replacement Rotating Assemblies (100% Interchangeable with other OEM brands like Gorman Rupp®)
Vertical Multistage Stainless Steel Pumps

Hermetically Sealed Canned Motor Pumps:

Refrigerant & Liquefied Gas Pumps (for use with virtually all refrigerant liquids, e.g. R717 (NH3), R22, CO2, R134a, R404a, R11, R12, baysilone (M3, M5), methanol, silicon oil KT3, syltherm, etc.)
Single-Stage & Multi-Stage Centrifugal Pumps
Submersible & Self-Priming Centrifugal Pumps
Liquid Ring Vacuum Pumps
Positive Displacement Pumps: Gear, Internal Gear and Rotary Lobe Pumps

Magnetic Drive Pumps:

ANSI Dimensional ASME B73.3-2003 Compliant Chemical Process Pumps
API 685 Standard Centrifugal Pumps
High Temperature Pumps & High Pressure Multi-Stage Pumps

Pneumatically Operated Equipment:

Air Operated Diaphragm Pumps ¼" NPT to 3" ANSI Flanged
Filters, Regulators & Lubricators (FRL's)
Lubrication Equipment
Piston Pumps & Packages
Pneumatic Valves & Cylinders

Hygienic/Sanitary Construction Equipment:

Positive Displacement Pumps (Diaphragm, Rotary Lobe & Flexible Impeller)
Centrifugal Pumps
Hose and Coupling Assemblies
Valves (Ball, Butterfly, Check and Sandwich Designs)

Thermoplastic Pumps for Corrosive Liquids:

Centrifugal Pumps with Magnetic Drive or Mechanical Seal(s)
Self-Priming Pumps with Magnetic Drive
Vertical Sump Pumps (close-coupled, flexible-coupled & cantilever designs)
Lined Thermoplastic/Cast Iron Reinforced Centrifugal Pumps
