## Technical specifications

Supply voltage	110-230 V 50/60 Hz
Energy consumption	Less than 40 Watt/hour
Overload protection	Internal fuse (2 A) 20x5 mm <sup>2</sup>
Capable of driving	2 coils in series or double stacked
Coil cable	Three core: 0.75 mm <sup>2</sup> Outer diameter 7 mm
Maximum Coil Temperature	230°F/ 110 °C
Maximum ambient temperature	122°F/ 50°C
Enclosure material	Aluminum
Protection rate	NEMA3R/IP56
Weight unpacked	6.6 lbs/3 kg
Dimension unpacked	7.9"x7.9"x2.4" 200 x 200 x 61 mm <sup>3</sup>
